

Notice of Submission of Terms of Reference Lafleche Environmental Inc. Eastern Ontario Waste Handling Facility Expansion Environmental Assessment

As part of the Environmental Assessment (EA) process for an expansion of the Lafleche Environmental Inc. Eastern Ontario Waste Handling Facility (EOWHF) landfill disposal capacity, a Terms of Reference (ToR) was submitted to the Ministry of the Environment and Climate Change for review as required under the Environmental Assessment Act (EA Act). Submitting a proposed ToR is the first step in the EA process. If approved, the terms of reference (ToR) will serve as a framework for the preparation and review of the EA for the proposed undertaking. The preparation of the EA represents the second step of the EA Act approvals process.

The proposed expansion of the existing landfill disposal capacity will involve the development of Stage 3B and Stage 4 of the existing landfill. These landfill stages were identified for development in the original Environmental Assessment (EA) approval for the Facility. The development of these stages will provide approximately 4.2 million m³ of landfill disposal capacity and extend the operating life of the landfill by approximately 10 years. The EOWHF is located within the Township of North Stormont, approximately 5 kilometres north-northwest of the village of Moose Creek, Ontario, and 5 kilometres east of the village of Casselman, Ontario. The location of the Facility is shown on the Key Plan below.

KEY PLAN
